

PIN-Less

Global Debit Network

HOW IT WORKS

PIN-LESS DEBIT

Most businesses today accept electronic payments. Visa, MasterCard and Electronic Checks are the payment processing norm. Now, there is a new way to process bank card transactions: PIN-Less Debit. PIN-Less allows you to use your existing payment processing vendor, systems and customer bank-issued cards while saving you up to 30% on transaction fees. As of 2008, there were nearly 700,000 business in the US that could be saving money with PIN-Less Debit Services. At least, 34.6% of all Visa/MasterCard transactions, processed at 1.5-4% transaction fees, could have been processed as PIN-Less Debits saving businesses up to 30% per transaction.

PIN-LESS SUPPORTS ALL PAYMENT MEDIUMS

PIN-Less has works to add our service to your existing website payment processing systems. This requires very little time and is free and easy for you. Working with PIN-Less will not require you to switch to a new payment processing company.

KEEP YOUR EXISTING PAYMENT PROCESSOR

PIN-Less has works to add our service to your existing website payment processing systems. This requires very little time and is free and easy for you. Working with PIN-Less will not require you to switch to a new payment processing company.

USE YOUR EXISTING CUSTOMER PAYMENT INFORMATION

PIN-Less Debit is simple: once your account is set up you will be transacting payments with the same customer account information using the Debit Networks (Star, Pulse, Plus, etc). Approved transactions will behave in a manner you are familiar with. The transacted amount will be placed in your business banking account within 1-3 business days.
